#### ENERGY AND WATER DEVELOPMENT APPROPRIATIONS ACT, 2001—VETO MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 106-299)

The SPEAKER pro tempore laid before the House the following veto message from the President of the United States:

##### *To the House of Representatives:*

I am returning herewith without my approval, H.R. 4733, the "Energy and Water Development Appropriations Act, 2001." The bill contains an unacceptable rider regarding the Army Corps of Engineers' master operating manual for the Missouri River. In addition, it fails to provide funding for the California-Bay Delta initiative and includes nearly \$700 million for over 300 unrequested projects.

Section 103 would prevent the Army Corps of Engineers from revising the operating manual for the Missouri River that is 20 years old and needs to be updated based on the most recent scientific information. In its current form, the manual simply does not provide an appropriate balance among the competing interests, both commercial and recreational, of the many people who seek to use this great American river. The bill would also undermine implementation of the Endangered Species Act by preventing the Corps of Engineers from funding reasonable and much-needed changes to the operating manual for the Missouri River. The Corps and the U.S. Fish and Wildlife Service are entering a critical phase in their Section 7 consultation on the effects of reservoir project operations.
